

Investment involves risks, including the loss of principle. Past performance is not indicative of future results. Before investing in the ChinaAMC 20+ Year US Treasury Bond ETF (the "Fund"), investor should refer to the Fund's prospectus and respective KFSs for details, including the risk factors. You should not make investment decision based on the information on this material alone. Please note:

- The Fund aims to provide investment result that, before fees and expenses, closely corresponds to the performance of the ICE U.S. Treasury 20+ Year Bond Index (the "Index").
- The Fund is passively managed and falls in the Index may cause falls in the value of the Fund. The Fund is subject to tracking error risk, trading risk with discount or premium and multi-counter risk.
- The Fund majorly invests in US Treasury debt securities with 20+ years remaining term to maturity and is subject to general market risks, concentration risk, credit/counterparty risk, income risk, interest rate risk, sovereign debt risk, valuation risk, credit rating risk and downgrading risk.
- The Fund is subject to securities lending transactions risks, including the risk that the borrower may fail to return the securities in a timely manner.
- The Fund has Listed Units traded in RMB and HKD counters and Unlisted Classes not designated in USD, therefore subject to fluctuations in exchange rates. Investors in Unlisted Hedged Classes bear the associated costs and may be exposed to the risk associated with hedging instruments used.
- Listed and unlisted classes are subject to different pricing and dealing arrangements. NAV per Unit of each class may be different due to different fees and cost.
- Units of listed class are traded in the secondary market on an intraday basis at the prevailing market price, while units of unlisted class are sold through intermediaries based on the dealing day-end NAV. Investors of unlisted class could redeem at NAV while investors of listed class in the secondary market could only sell at the prevailing market price and may have to exit the Fund at a significant discount. Investors of unlisted class may be at an advantage or disadvantage compared to investors of listed class.
- Distributions will be made in the USD only. Unitholder of distributing classes without USD account may have to bear the fees and charges associated with currency conversion.
- The Fund may at its discretion pay distribution out of capital or effectively out of capital. Payment of dividends out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any distributions may result in an immediate reduction in the NAV per Unit of the Fund.

Investment Objective

The investment objective is to provide investment results that, before fees and expenses, closely correspond to the performance of ether, as measured by the performance of the CME CF Ether-Dollar Reference Rate (APAC Variant).
