

Investment involves risks, including the loss of principal. Past performance is not indicative of future results. Before investing in the ChinaAMC Solana ETF (the "Fund"), investor should refer to the Fund's prospectus for details, including the risk factors. You should not make investment decision based on the information on this material alone. Please note:

- The Fund aims to provide investment results that, before fees and expenses, closely correspond to the performance of SOL, as measured by the performance of the CME CF Solana-Dollar Reference Rate – Asia Pacific Variant (the "Index").
- The Fund is passively managed and falls in the Index may cause falls in the value of the Fund. The Fund is subject to new product risk, new index risk, tracking error risk and trading risk with discount or premium.
- Due to the Fund's direct exposure in SOL only, it is subject to concentration risk and risks related to Solana and SOL, such as SOL and Solana industry risk, speculative nature risk, unforeseeable risks, limited history of SOL risk hybrid PoH and PoS mechanism risk, inflationary risk, extreme price volatility risk, concentration of ownership risk, regulatory risk, fraud, market manipulation and security failure risk, cybersecurity risks, network outage risk, forks risk, risk of illicit use, trading hours difference risk.
- The Fund is subject to risks related to virtual asset trading platforms ("VATP"), custody risks and risk relating to the difference between executable price of SOL on SFC-licensed VATPs and Index price for cash subscription and redemption.
- Listed and Unlisted Classes are subject to different pricing and dealing arrangements. NAV per Unit of each class may be different due to different fees and cost. Dealing deadlines of different classes may be different.
- Units of Listed Class are traded in the secondary market on an intraday basis at the prevailing market price, while Units of Unlisted Class are sold through intermediaries based on the dealing day-end NAV. Investors of Unlisted Class could redeem at NAV while investors of Listed Class in the secondary market could only sell at the prevailing market price and may have to exit the Fund at a significant discount. Investors of Unlisted Class may be at an advantage or disadvantage compared to investors of Listed Class.
- The Fund is subject to multi-counter risks.

Please note the above list of risks is not exhaustive, please refer to the Fund's prospectus for details.

▲ Investment Objective

The investment objective is to provide investment results that, before fees and expenses, closely correspond to the performance of SOL, as measured by the performance of the CME CF Solana-Dollar Reference Rate (APAC Variant) (the "Index").

¹ Please refer to the Fund's prospectus for further details (including fees).

² Past performance information is not indicative of future performance. Investors may not get back the full amount invested. The computation basis of the performance is calculated on a daily NAV-to-NAV basis, with dividend reinvested (in case of distributing/distribution unit/share class, without dividend reinvested), daily NAV is zero if units or shares of a fund, sub-fund or share class are fully redeemed. Where no past performance is shown, meaning there was insufficient data available in that period to calculate and provide fair performance.

³ Based on total return and is denominated in USD. Index returns are for illustrative purposes only and are not indicative of future results. Index returns do not reflect any management fees, transaction costs or expenses. Change indicates the change since the last closing index level. Source: CF Benchmarks.

⁴ Calculated since 27 Oct 2025, the first official NAV date of the fund.
