

ChinaAMC Select Money Market Fund

Fund Factsheet | As of 30 May 2025 New Capital Investment Entrant Scheme (New CIES) Eligible fund

Investment involves risks, including the loss of principal. The price of units or shares of the Funds may go up as well as down. Past performance is not indicative of future results. The value of the Funds can be extremely volatile and could go down substantially within a short period of time. You should read the Fund's Placing Memorandum or Explanatory Memorandum and Product Key Facts Statement for details, including risk factors. Investors should not base investment decisions on this marketing material alone. Please note:

- ChinaAMC Select Money Market Fund (the "Fund") seeks to achieve long-term return in line with prevailing money market rates, with primary considerations of both capital security and liquidity, by investing not less than 70% of the NAV in HKD and USD denominated and settled short-term deposits and high quality money market instruments issued by governments, quasi-governments, international organizations, and financial institutions globally.
- The Fund is an investment fund and not a bank deposit.
- Investment in money market instruments involves volatility and liquidity risk, credit risk, interest rate risk, credit rating risk, valuation risk, downgrade risk and sovereign debt risk.
- Investment in short-term deposits is subject to the credit risks of the financial institutions that offer and act as counterparties of such deposits.
- Investment in short-term debt instruments are not risk-free. The turnover rates of the Fund's investments may be relatively high, as such the transaction costs incurred by the Fund will increase.
- The Fund will invest primarily in HKD and USD-denominated instruments. The value of the Fund may be more volatile than that of a fund having a more diverse portfolio of investments.
- Certain investments acquired by the Fund are denominated in currencies different from its base currency. The NAV of the Fund may be affected by exchange rates and by changes in exchange rate control.
- The Fund may acquire FDIs for hedging purpose. The price of a derivative instrument can be very volatile and involves counterparty risk. In adverse situations, such hedging may become ineffective and the Fund may suffer significant losses.
- The Manager of the Fund may impose a redemption restrictions on the Fund on any Dealing Day. Where the Manager effects such limitation on redemption, redemption requests in excess of the relevant limit will not be dealt with on that Dealing Day.
- The Fund may at its discretion pay distribution out of capital or effectively out of capital. Payment of distributions out of capital or effectively out of capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment. Any such distributions may result in an immediate reduction in the NAV per Unit of the Fund.

Investment Objective

The Fund seeks to achieve long-term return in line with prevailing money market rates, with primary considerations of both capital security and liquidity, by investing not less than 70% of the Net Asset Value of the Fund in HK dollar and US dollar-denominated and settled short-term deposits and high quality money market instruments issued by governments, quasi-governments, international organizations, and financial institutions globally.

1 Please refer to the Fund's prospectus for further details (including fees).

2 Past performance information is not indicative of future performance. Investors may not get back the full amount invested. The computation basis of the performance is calculated on NAV-to-NAV with dividend reinvested. With effect from 7 September 2020, the base currency, investment objective and strategy of the fund were changed. The performance of the fund prior to 7 September 2020 was achieved under circumstances that no longer apply.

3 Calculated since the inception date of each respective share class. For inception date, please refer to "Available Share Classes" section in this document.

4 Calculated based on a seven-day (seven calendar days) period by annualization based on change in net asset value (NAV) between 23 May 2025 and 30 May 2025, using the formula: (7-calendar-day cumulative return⁴(365/7)-1)x100%. Please note that this figure is a hypothetical performance which is calculated based on a 7-day period of the Fund's past performance and does not represent an actual one-year return. The most updated figure is available on our website https://www.chinaamc.com.hk/product/chinaamc-select-money-market-fund/#fund_price_performance for investor's information.
